

BabyBUSD (BabyBUSD)

BEP-20 Audit

Performed at block 9997026

PERFORMED BY DESSERT FINANCE
FOR CONTRACT ADDRESS: 0xA22DC6BabAb39C2D83F0d4b174ef7016424253a7

INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various BSC projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to a project audit can be seen as a sign of confidence and is generally the first sign of trust for a project, but in no way guarantees that a team will not remove *all* liquidity (“Rug Pull”), sell off tokens, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice.

Website Part 1 – Overview

www.babybusd.com

Above images are actual snapshots of the current live website of the project.

Website was registered on 07/01/2021, registration expires 07/01/2024, previously 07/01/2022.

✓ This meets the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

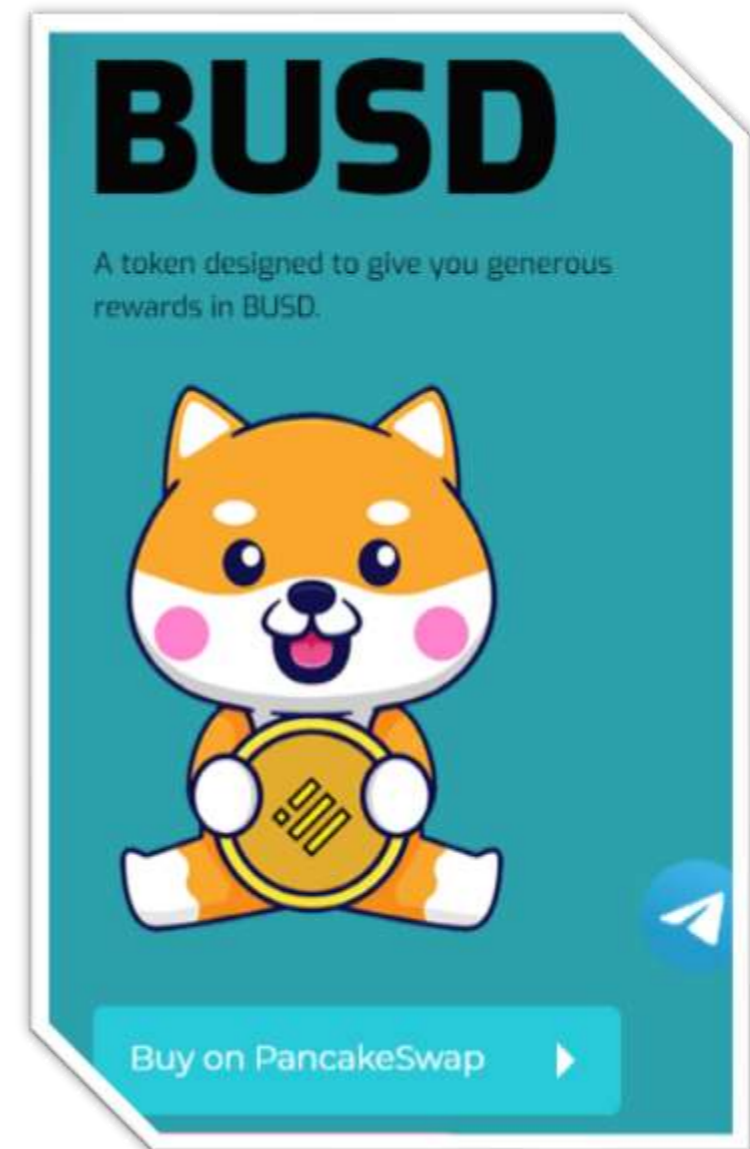

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: babybusd.net

Issued by: cPanel, Inc.

Valid Until: 09/29/2021

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

Contact

     * @dev Sets 'amount' as the allowance of 'spender' over the caller's tokens.
     * Returns a boolean value indicating whether the operation succeeded.
     *
     * IMPORTANT: Beware that changing an allowance with this method brings the risk
     * that someone may use both the old and the new allowance by unfortunate
     * transaction ordering. One possible solution to mitigate this race
     * condition is to first reduce the spender's allowance to 0 and set the

```

- ✓ Integer Underflow
- ✓ Integer Overflow
- ✓ Correct Token Standards Implementation
- ✓ Only Timestamp Dependency for Randomness
- ✓ Unexposed Private Transfer Function
- ✓ Transaction-Ordering Dependency

Code is truncated to fit the constraints of this document.

[The code in its entirety can be viewed here.](#)

The contract code is **verified** on BSCScan.

Common vulnerabilities were not found in the token's Smart Contract as shown above.

Social Media

We were able to locate multiple Social Media networks for the project including Twitter, Telegram, Youtube and Reddit. All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Youtube](#)

[Reddit](#)

✓ **At least 3 social media networks were found.**

Social and Web – Final Thoughts & Suggestions for Improvement

We were able to track down social media channels for the project. Social Media channels included Twitter, Telegram, Youtube and Reddit. All social media channels had a healthy amount of activity.

It is important to note that there is an 15% tax on EVERY buy transaction. 5% goes to providing liquidity, and 10% is distributed to the token holders in BUSD. The sell tax on every transaction is 21%, 7% goes to providing liquidity and 14% is distributed to the token holders in BUSD.

The SSL for the website does not auto-forward unless visitor manually types https:// we recommend updating this to auto-forwarding for better security practices. ✓ *Resolved*

We were only able to locate two social media profiles and were unable to locate a posted email for the project, we recommend adding an additional social media network and a contact email for additional holders to reach out. ✓ *Resolved*

Suggestions for Improvement

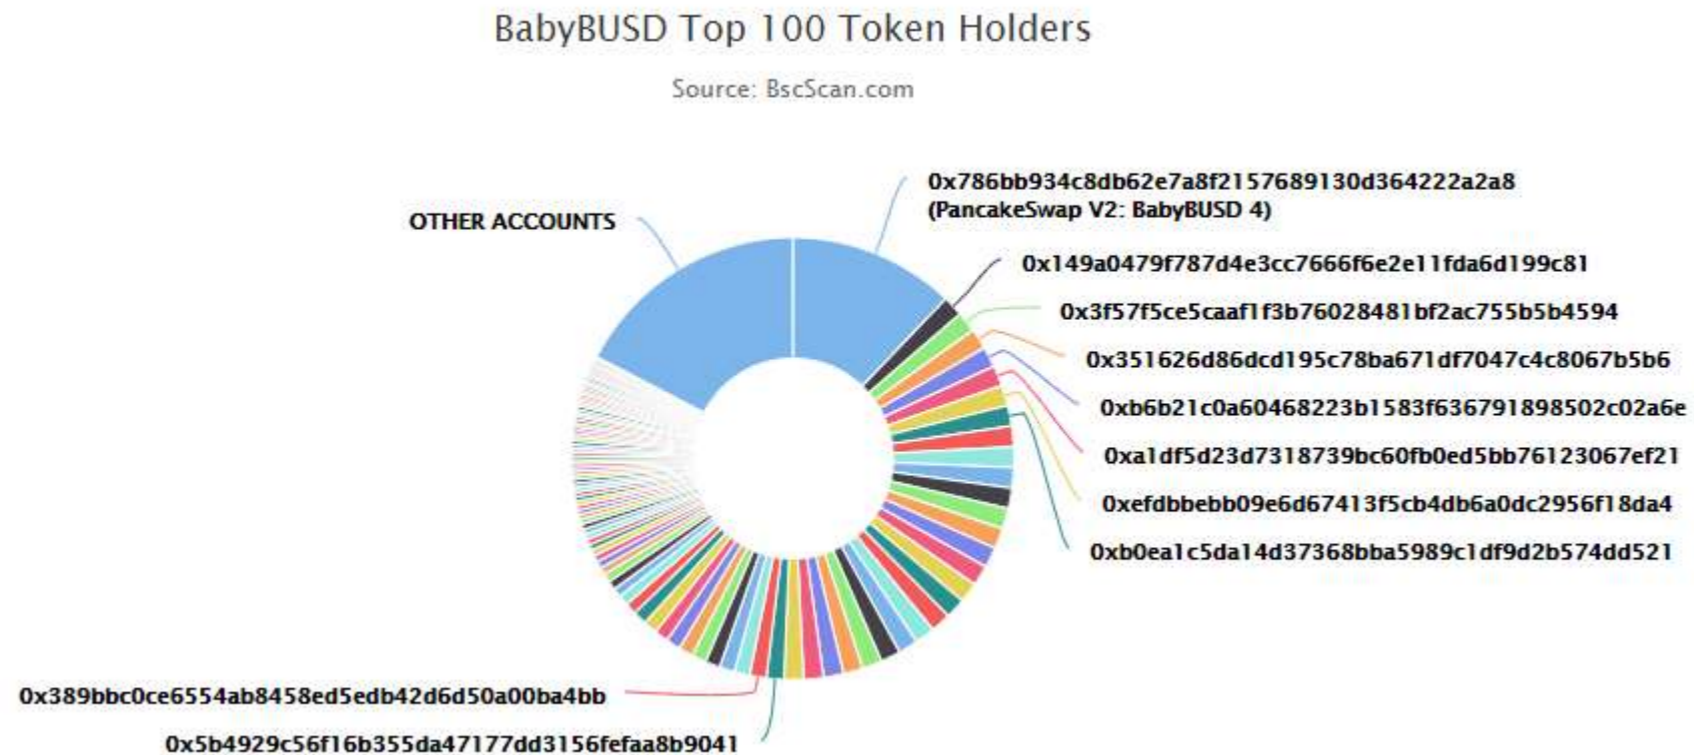

1. Update SSL Certificate to auto-forward to https ✓ *Resolved*
2. Update domain registration to 3+ years ✓ *Resolved*
3. Add contact email to the website ✓ *Resolved*
4. Add additional social media profiles ✓ *Resolved*
5. Update Tokenomics on website to clearly state sell fees ✓ *Resolved*

Top Token Holders

The top token holders at the time of the audit are shown below.

[Click here to view the most up-to-date list of holders](#)

1. [PancakeSwap V2: BabyBUSD 4](#)– the top token holder was a contract holding 18.70% of the total supply. This is the PancakeSwap liquidity pool.
2. [0xb6b21c0a60468223b1583f636791898502c02a6e](#)– the 2nd largest holder was a wallet containing 1.5% of the supply.
3. [0x3f57f5ce5caaf1f3b76028481bf2ac755b5b4594](#)– the 3rd largest holder was a wallet containing 1.5% of the supply.

Location Audit

We were unable to identify a primary location for the project at this time or a location has not been declared.

Team Overview

As a longtime eth miner before I got into solidity coding, I have been in the crypto space for quite a few years now. After seeing safemoon after safemoon clone for months on end I decided that there was a better way. Coming from a background in game development solidity was a breeze to get hang of and I have been experimenting ever since! As luck would have it I met the 2 lads below and we started planning for a launch around mid april, the rest as they say: is history!

24 Years old Born in England - Reflections not rugs. BSC has been one crazy roller coaster and its led me here... not been in the BSC space for to long but i think i have learned my fair share seen enough of greedy lazy devs and scams over and over. i strive to change lives of the people around me and achieve greatness one step at a time. Come say hello in the Telegram/ Twitter/ Email always active with the community!

Sailed these crypto seas since a few months ago. Been rugged many a time aye. Savvy?
On a serious note, I've been in crypto since 2017. Only recently entered the casino that is BSC. Been rugged and dumped like many other people. Now we made an unruggable token. POWER TO THE PEOPLE!

Potential Signs of Risk

1 YEAR DOMAIN REGISTRATION

✓ *Resolved*

PROJECT HAS COMMON USE-CASE
(REFLECT TOKEN)

The above listed are the top 2 risk indicators of the project. These are by no means assigning the project as a risky project. Every project will have the top risk indicators posted. It is crucial to note that some may be more important than others.

Potential Signs of Confidence

1

TEAM HAS BEEN VERY
RESPONSIVE IN
ADDRESSING QUESTIONS

2

PANCAKESWAP LIQUIDITY
POOL TOP HOLDER

3

CONTRACT CODE
VERIFIED ON BSCSCAN

4

SSL CERTIFICATE WAS
FOUND AND VALID

5

ACTIVE SOCIAL MEDIA PRESENCE

The above listed are the top 5 confidence indicators of the project. These are by no means assigning the project as a confident project. Every project will have the top 6 confidence indicators posted. It is crucial to note that some may be more important than others.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding BSC projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You

DESSERT FINANCE PROJECT AUDIT HAS BEEN COMPLETED FOR BABYBUSD (BABYBUSD). 1 DSRT HAS BEEN SENT TO AUDITED PROJECT'S CONTRACT ADDRESS FOR VERIFICATION OF THIS AUDIT AT BLOCK NUMBER: **9997026**
